I'm very glad to tell you all that how much I'm pleased to write these things which happens in my life...

About in March (2021), I connect with brother Kevin on Facebook and then we discuss about the Creator... First time when we discussed this then I feel that I'm at on wrong side. So, then we start the work of YAH here in my village, The first bible study we did only with kids but Yahuah blessed us we then we see the growth and then alot of parents also join us....

As soon as it's going, we also blessed the people physically, Brother Kevin always provide the needs of the people. We worked on many many projects but in all project I love to distribute the Bibles and I'm very pleased that my whole covenant club family love my people and this little ministry and then they show their love in the form of food packages..

I really love brother Kevin, He is my big brother. As we was working YAH also blessed the ministry and we grow this and now we are doing the Bible study in the whole week. HalleluYah

All praise to YAHUAH

If I get this personally this is too important for me because due to this connection the hundreds of the people are getting in the true words of YAH...
